## **Quality and Compliance Division Social Responsibility**

On January 1, 2012, the California Transparency in Supply Chains Act of 2010 (SB 657) will go into effect in the State of California. This law was designed to increase the amount of information made available by manufacturers and retailers regarding their efforts (if any) to address the issue of slavery and human trafficking, thereby allowing consumers to make better, more informed choices regarding the products they buy and the companies they choose to support.

Aras Power Technologies goal is to maintain the highest standards of ethical conduct and integrity in all areas of our business and our company's activities, including within our supply chain. We are committed to upholding the human rights of workers and treating them with dignity and respect as understood by the international community. This commitment includes efforts to ensure that our suppliers comply fully with all laws prohibiting human trafficking and slavery.
